

Storm boy

ORIGAMI PELICAN

1. Start with a square sheet of paper. Fold in half on the diagonal. Unfold.
2. Fold the left and right edges of the paper to meet the central crease made in step 1. This makes a kite shape.
3. Repeat the process: fold the left and right edges to meet the central crease. This makes a skinny kite shape.
4. Fold the model in half so the sharp point meets the corner on the opposite side.
5. Fold the sharp point back again beyond the edge of the model. This protruding portion will be the beak of the pelican.
6. Fold the model in half vertically (valley fold to create left and right side of pelican). Rotate quarter turn.
7. Gently pull the neck and head of the pelican away from the body.
8. Reverse fold the tail up and tuck it between the body of the pelican. Valley fold the wing a little and you're done!

Storm boy

opens nationwide on Friday, April 5!
